VANNETTA HANEY

SENIOR FP&A | STRATEGIC FINANCE | EXCEL • SQL • PYTHON • POWER BI

Springfield, Illinois | 217-487-6479 | vannettahaney@gmail.com | linkedin.com/in/vannetta-haney-09693335b
Portfolio: https://vhane-create.github.io/portfolio/

PROFESSIONAL PROFILE

Senior FP&A and strategic finance professional with four years of strategic finance, revenue planning, and FP&A experience at Uber, recent contract FP&A work with Mercor, and six years owning and operating a two-location salon business with full responsibility for staff, payroll, budget, pricing, and P&L. Focused on forecasting, financial modeling, budgeting, variance analysis, and management reporting, using advanced Excel, SQL, Python, Power BI, and AI-assisted analytical workflows.

PROFESSIONAL EXPERIENCE

UBER | Strategic Finance, Revenue Planning & FP&A | 2021–2025

- Developed Excel-based financial forecasts and models to assess revenue expectations, budget assumptions, and operating performance.
- Analyzed budget-versus-actual results, demand, pricing, discounts, costs, and margins to explain variances and identify opportunities.
- Evaluated business cases and alternative scenarios using projected financial impact, payback, risk, and changing operating assumptions.
- Prepared financial analyses and management-ready recommendations to inform planning and resource decisions.
- Validated underlying financial inputs and calculation logic to improve the reliability of planning materials.

BEAUTIUNLIMITED SALON AND SPA LLC | Owner & Operator | 2020–Present

- Own and operate a two-location hair business (Springfield, Illinois and Springfield, Missouri); LLC formed April 2022.
- Manage a team of 3–5 stylists and staff: hiring, training, scheduling, supervision, and performance.
- Run payroll and commission structures; own the business budget and P&L, tracking revenue, costs, pricing, and profitability.
- Make pricing, staffing, and spending decisions based on the business's financial results and operating needs.

MERCOR | Contract FP&A Analyst (Independent Contractor) | August–October 2026

- Reviewed financial models, forecast assumptions, revenue and operating-income analyses, and spreadsheet inputs for contract FP&A assignments.
- Reconciled source information, investigated discrepancies, and documented financial calculation issues and recommendations.

HANDSHAKE | Contract Data Evaluation & Quality Assurance | Remote, 2026–Present

- Evaluated AI-generated and multimodal outputs for accuracy, completeness, and consistency; documented evidence-based quality judgments.

SKILLS

FINANCE | FP&A • Budgeting and forecasting • Revenue and margin analysis • Financial modeling • Variance analysis • Business cases • Scenario and sensitivity analysis • Management reporting

TECHNICAL | Advanced Excel • Financial models and dashboards • SQL • Python • Power BI • AI-assisted analytical workflows (Claude, Codex) • Data reconciliation

LEADERSHIP | Small-business ownership • Staff hiring, training, and supervision • Payroll and commissions • P&L ownership • Pricing decisions

SELECTED PROJECTS (PORTFOLIO — ILLUSTRATIVE / SIMULATED DATA)

Enterprise FP&A Command Center: Illustrative integrated revenue, operating cost, workforce, EBITDA, and liquidity scenario model with a budget variance bridge and quarterly outlook; plus six supporting demos (three-statement forecast, consolidation, workforce planning, controls, treasury liquidity, data pipeline). Synthetic data.

Excel Budget vs. Actual & SQL Variance Analysis: Formula-driven budget-vs-actual workbook, and SQLite variance analysis using joins, CTEs, window functions, and reconciliation checks on a simulated finance dataset.

Three-Year FP&A Forecast & Salon Scenario Dashboard: Top-down and bottom-up planning assumptions with projected P&L outputs; JavaScript dashboard modeling volume, pricing, costs, operating profit, and break-even across two locations.

ADDITIONAL EXPERIENCE

University of Illinois Springfield | Student Research Assistant, Chemistry | June 2026–Present — Organize research data, review literature, and prepare technical documentation.

SIU School of Medicine | Student Hotspotting Participant | Oct 2025–Mar 2026 — Interdisciplinary case reviews and evidence synthesis.

NEMT LLC | Medical Transport | 2016–2018 — Transported patients to medical appointments and hospitals.

Springfield Fire Department | EMT / Firefighter I | 2012–2015 — Responded to emergencies, assessed patients within EMT protocols, and documented care.
